FROM THE EQUATOR TO THE WORLD

PHILOSOPHY

Luxury Begins at the Origin

Terra Origin is more than a collection of exceptional products.

It is a curated expression of origin.

Every creation begins at the Equator—in the heart of Ecuador, where extraordinary biodiversity, volcanic soils, pristine water, and ancestral knowledge come together to create what cannot be replicated anywhere else in the world.

We partner with small producers, harvest limited editions, and preserve the authenticity of every ingredient, ensuring that each creation remains as rare as the place it comes from.

We do not believe luxury is measured by abundance.

We believe true luxury is defined by rarity.

Every coffee, every rose, every bottle of water, every cacao creation is the expression of a singular place, a singular harvest, and a singular moment in nature.

Because true luxury always begins at its origin.

GREEN PLANTAIN SNACKS

Nature, Perfected

Our premium green plantains are grown in the cloud forests of Puerto Quito and Santo Domingo, one of Ecuador's most biodiverse ecosystems.

Surrounded by pristine nature, these fertile landscapes produce exceptional fruit rich in flavor and naturally high in potassium.

We transform this extraordinary ingredient into a wholesome snack that is naturally gluten-free, vegan, and crafted to preserve its authentic taste and nutritional value.

We do not alter nature. We elevate it

MICROLOT COFFEE

Where Mountains Shape Extraordinary Flavor

Our coffee is born in carefully selected microlots nestled between the majestic Andes and Ecuador's warm Pacific region.

Volcanic soils, high elevations, unique microclimates, and the dedication of small farming families produce coffees with remarkable complexity, refined aromas, and unforgettable character.

Each harvest reflects the personality of its land. Each cup tells the story of a specific mountain, a specific season, and a community devoted to excellence.

Once a harvest is gone, it can never be recreated.

That is the essence of true origin coffee.

VOLCANIC MINERAL WATER

Perfected by Time

Born from the glacial waters of Cotopaxi Volcano, our naturally sparkling mineral water spends more than a decade filtering through ancient volcanic rock before emerging from a protected natural spring.

This extraordinary geological journey creates an exceptional mineral balance, remarkable purity, and a refined taste found in only a handful of waters around the world.

Internationally recognized among the world's finest mineral waters, it is a testament to what only nature—and time—can create.

Premium Bottle

No technology can accelerate
ten years of perfection.

ANCESTRAL CACAO

Where Chocolate Begins Long Before Chocolate

Ancestral preserves one of the world's rarest cacao legacies: authentic Nacional Fine Aroma cacao from ancestral trees, thoughtfully paired with the extraordinary white cacao of the Ecuadorian Amazon.

Each creation reflects exceptional genetics, regenerative agriculture, and a deep commitment to the communities that have safeguarded these forests for generations.

Our work transforms cacao into an expression of craftsmanship, innovation, sustainability, and timeless luxury.

We do not simply make chocolate.
We create signature experiences inspired by one of the world's most exclusive cacao origins.

Because extraordinary
chocolate begins at the tree.

SIGNATURE ROSES

Product: **Roses**
Presentation: **Arrangement of 100 roses**
120 Rose varieties
Luxury Floral Arrangement

Nature's Finest Couture

High in the Ecuadorian Andes, where intense equatorial sunlight and exceptional altitude create ideal growing conditions, bloom roses celebrated among the finest in the world.

Terra Origin curates exclusive floral collections that transform every stem into a work of natural artistry.

From our velvety Velvet Roses and vibrant Pink Collection to our iconic classic red roses, each bloom is carefully cultivated, hand-selected, and presented as an expression of elegance.

These are not simply flowers.
They are nature's finest couture.
